

IN SEARCH OF NOAH'S ARK BY STAN KELSO-MARSH

A battle with the elements - which we overcame and were all better people for it. What started off as a pleasant afternoon stroll in stinking Cambodian heat turned into a swim in a Cambodian squall. D'ont ask me where we ran, but it was out towards the Killing Fields somewhere. The first half of the run progressed well with a well defined trail - until NOSEJOB spotted the beer truck and beat a path in it's general direction, throwing everyone into general confusion. The hare then lost complete control as the runners seeing the beer truck sprinted in its general direction. In particular RAWHIDE and BEN HALL who were required to down down at the beer stop (the official one) for their indiscretion. Some have claimed that when the beer truck is sighted one can leave the trail and make for the truck, this being the case maybe VOYEUR made the wrong call.

After waiting days for the walkers to turn up, the second half commenced in what is known as Cambodia's fiercest storm for many years. Runners were beaten by hail and lashed by rain. The trail disappeared in the flood and intrepid searchers followed VOYEUR for his lead. The locals went wild with AKs, some say shooting at the clouds,

NOT QUITE AN ARK BUT THE HASH COULD HAVE DONE WITH IT LAST SUNDAY.

more likely with the excitement of the HASHERS searching for a trail laid 3 inches underwater.

At the final holding check the hare claimed 2km left to run, 20 minutes later (longest damn 2ks I've ever run), runners straggled in, with nearly all establishing individual trails.

The run finally finished in a 'local's' house with down downs. The "local" steadfastly refused to down down, and the injury list rising to a couple of ankles, a knee and a hammy (the old soft tissue wooz injury). All in all, sun, heat, hail, rain and floods included, the run was enjoyed by those who completed it regardless of the trails taken.

RUNNERS HIT BY LIGHTNING

THE WEST AUSTRALIAN 28/1 /88

DARWIN: Lightning struck 10 joggers at a suburban oval yesterday.

One of them stopped breathing but was revived by a fellow runner who administered mouth - to - mouth resuscitation.

The lightening bolt shattered a tree a few metres away from the runners, members of the CASUARINA HASH HOUSE HARRIERS club.

Club member Colin Carpenter said they were very lucky:

"A bolt of lightening hit one man in the head, then it came off his head and hit me in the chest.

"It then came out one of my ankles. I had buums on my chest and an ankle.

"A FELLOW RUNNER ADMINISTERED MOUTH-TO-MOUTH RESUSCITATION"

I was dazed for quite a while and I still feel stiff and sore today"

(This article is copied from the above publication and it actually happened (even though it sounds like a take the piss) , so keep your heads down HASHERS! Ed.)

POTTIE BLOTTIE:

28 July 1995:

At the HASH AGM on Friday
night there were a few items that
deserved mentioning in the
BLOTTIE.

Firstly HASH SEX finally got rid of
his name . However his new name
is probably worse than his old one.
From now on ,on the HASH ,
HASH SEX will be known by the
name SEMEN.

Additionally one of the virgins from
last week's hash, Eve, recently
joined us from Australia got
named. Eve had the distinction of
not only twisting/spraining her
ankle but when that was sufficiently
sprained she tried to break her
other knee. None the less Eve
turned up at the HASH AGM,
climbed up 2 flights of stairs on
crutches. From now on, on the
HASH Eve will be known as not
crutch but CROTCH.

Meanwhile at last Sundays HASH
there were lots of virgins, lots of
birthdays and loads of sinners.

FOUR INCHES RESIGNS (AGAIN) P2H3 AGM REPORT.

he PHNOM PENH HASH
HOUSE HARRIERS Annual
General Meeting took place on the 28th
July at VOYEUR's rooftop. A sea-
soned bunch of HASHERS arrived to
elect a new committee, drink some
beers, air their grievances, drink some
more beer, insult each other with reck-
less abandon, drink some more beer
etc. etc.....

(W)ANGKORMAN got the night
off to a 'cracking' start by breaking
one of VOYEUR's loungers, (appar-
ently he sat on the 12 stone one, not the
17 stone one designed for people of his
stature) NOSEJOB and LAY-HE-HO
wisely chose the more supportive op-
tion that is the floor!

**HASH BREW PROBLEM
CALL VOYEUR ON THE
BREW HOTLINE
TEL 015-914027**

VOYEUR ranted on for quite a while
praising himself for doing such a good
job with HASH CASH which he glee-
fully announced was over \$1000 dol-
lars in credit (well done VOYEUR). A
portion of this money will be spent
bringing some kids from an orphanage
on an outing in the dry season.

It was suggested and passed by
those present that the HASH hold a so-
cial evening once each month for it's
members - the location of which will be
organized by HASH BASH and her
merry bunch of juniors. Every 2
months the HASH will organise a BBQ
evening (instead of the social evening)
which will be organised by the HASH
BASH committee also.

The meeting proceeded with the
election and reelection of the commit-
tee. Once again FOUR INCHES re-
signed from his position as GRAND
MASTER. We all had a good laugh
and duly re-elected him. VOYEUR re-
elected ASSISTANT GRAND MAS-
TER after fighting off a challenge from

NOSEJOB (who together with FOUR
INCHES it was thought , were conspir-
ing to form The Enterprise Oil Phnom
Penh HHH). NOSEJOB was elected
HASH CASH in a close contest with
VOYEUR and as VOYEUR has done
such a good job in that position it was
suggested and passed that he should
act as policy advisor / Programme
Manager to the newcomer. Sally Baker
was elected HASH STATS for when
UDDER BUTTER leaves. HASH
BASH will continue to be dictated by
RETURNEE aided by (W)ANGKOR-
MAN, DAFFIDILDO, Meena and
John Reeds. HASH FLASH remains in
the capable lens of KY. TRAIL-
MISTRESS remains in the capable
hands of MUFFY who informed the
meeting that she was currently compil-
ing a record of run locations and ON
ON ON locations. VOYEUR offered
her a map to help in her quest. MR
UNCO and RAWHIDE remain on as
HASH SCRIBES (we need articles
please). WET ONE got the dubious
job of HASH SNITCH (which is just a
grand title for what he does each Sun-
day anyway). TOKYO JOE remains on
as CHOIRMASTER. New religious
advisors were elected in the form of the
apty named GREEN GODDESS and
LAY-HE-HO who ruled immediately
that FRBs are serious sinners! MAJOR
DISAPPOINTMENT was appointed
HASH MASH with responsibility for
keeping the HASH CRASH stocked
and up to date and also to administer
lethal injections to the sick HASHER.
BANANA SPLIT was elected HASH
SMURF in absentia (at going to press
time, the editors are still unsure of what
her position entails) It was decided that
HASH BREW should be taken care of
by the HARES of the day, but NOSE-
JOB and VOYEUR offered to aid peo-
ple with difficulty finding someone to
do BREW. The meeting was ad-
journed early as it was feared that the
party might wake up TOKYO JOE who
laid his head down on VOYEURS roof
for the night. ////////////////////
